

***2015 - 2016***  
***APP DEVELOPER***

Dear Applicant,

Hello and welcome to the application for the McGill Hong Kong Student Network's (HKSAN) App Developer position for the 2015-2016 academic year; your interest in applying to be an executive on our team is greatly appreciated!

The Hong Kong Student Network is an official SSMU student-run club, founded in 2006. HKSAN remains as one of the foremost cultural organizations on campus - attracting a rich diversity of members within and around the McGill community, reflective of the dynamics of Hong Kong, a city many of us call home. HKSAN organizes a series of social events, including but not limited to: food outings, singing competitions, cultural festivities, and collaborations with other student organizations in Montreal. HKSAN also recently introduced its first very own app on the Apple App Store. The app currently allows members who own Apple devices the chance to discover HKSAN's sponsors and the various deals they can receive with our membership card, as well as information about events throughout the year.

The App Developer will work towards developing a version of the app for Android users, and should have substantial prior experience in developing applications for Android devices. He/she will work on building an app which will be similar to its Apple counterpart, and eventually add new, innovative features once the basic app has been launched. In addition, the App Developer may assist with any of the other technological platforms of HKSAN such as the Apple App Store version of the app and HKSAN's website if needed.

It is important to note that a position on the executive team is a substantial time commitment throughout the school year, including the summer. The position comes with serious responsibilities including: mandatory attendance to all HKSAN executive meetings and events organized by HKSAN aside from the duties of an App Developer. Therefore, taking on the position as the App Developer will require strong time management skills, for a commitment to HKSAN in addition to a full university workload can be difficult to balance and has required sacrifices in the past. If you are prepared to make this commitment, you will quickly discover that the opportunities that result from your involvement with the executive team will be well worth the effort and that the experience is truly rewarding.

Should you have any questions or inquiries about HKSAN, the roles of the App Developer, the application process or other opportunities to participate in HKSAN, please do not hesitate to contact us at [mcgillhksn@gmail.com](mailto:mcgillhksn@gmail.com). Thank you for taking the time to submit your application. We wish you all the best and look forward to working with you in some capacity over the next academic year!

Sincerely,

Jency Zhen and Jeremy Lee

Co-Presidents, HKSAN 2015-2016
